Adult Education Program

HiSET is in full action

A goal of CES: Community School is to help improve the family life of the parents of our students as well as the adults who live in the Eden Park Community. In the 21st century, an education has increasingly become important because of changes in the political, economic and social systems. Adults who want to advance their education levels get better employment in which improve their financial status and in return improves their family lives. The purpose of adult educational programs is to help adults to probe, identify and change assumptions, beliefs and values that shape how they learn, act, think and meet their needs.

Capitol Elementary School offers the parents and residents of the Eden Park Community a hope for their future. The Adult Education Program & Credit Recovery started on October 21st. Registration is ongoing. We are so proud of the 5 students who has taken the first step in fulfilling their heart desired goal.

Mrs. Tameika Watkins is the instructor and she also is the school counselor for Capitol Elementary School. Dr. Dawn Flemings is the director for the Adult Education Program for East Baton Rouge Parish School System. The program is free, and is self-directed with the guidance of the instructor. We always look forward to more adult students taking the first step in changing their lives forever.

For more information please contact: Mrs. Watkins or Dr. Jackson at 225-343-9364

“If you want to be happy, set a goal that commands your thoughts, liberates your energy and inspires your hopes.” —

Family Math/Literacy Night

Was a Success!!

Capitol Elementary Literacy and Math night gave parents firsthand experiences on their child daily classroom activities. As usual, each event theme was decorated in 3D décor. This in itself motivated students to bring their parents out to see what surprise may be in store for attending. Some teachers had an opportunity to teach a lesson to parents to show how assignments are graded and how to assist with homework. This event was also an opportunity to ask teachers questions about the curriculum while having fun. Thanks parents for your support. YOU made this event a memorable experience shared with your child/children.

21st Century Community Learning Center

Capitol Elementary School after school program that focuses on academics, STEM, parent/family engagement

The 21st CCLC programs are **FREE** academic after-school and summer programs. Students are provided with opportunities for tutoring and academic enrichment, personal enrichment, and other activities designed to complement the regular school day. The 21st CCLC initiative is a key component of the Every Student Succeeds Act (ESSA). Authorized under Title IV, Part B, of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA) of 2015.

21st CCLC programs provide a range of high-quality services to support student learning and development. All services are FREE.

- Tutoring and mentoring
- Academic enrichment-ELA, math, science, technology.
- STEAM
- Enrichment activities such as art, health, engineering, positive youth development, career explorations. Summer activities may include water safety and swim lessons, 3-D imaging and printing, art mosaics, field trips to city and state parks, local museums.
